

Md Amanullah

Data Analyst

West Champaran, Bihar, India — +91 8226891419 — mdaman7781@gmail.com

PROFESSIONAL SUMMARY

Data Analyst with a B.Tech in Computer Science and Engineering and hands-on knowledge of SQL, Excel, Power BI, Python, Tableau, Pandas, and NumPy. Skilled in data cleaning, exploratory data analysis, KPI analysis, dashboard development, and business intelligence. Experienced in transforming raw data into actionable insights through SQL analysis, interactive dashboards, and end-to-end analytics projects.

TECHNICAL SKILLS

Programming: Python, SQL **Database:** MySQL

Data Analysis: Excel, Pandas, NumPy, Data Cleaning, EDA, Data Transformation, Statistical Analysis

Visualization: Power BI, Tableau, Matplotlib, Seaborn, Excel Charts, Interactive Dashboards

SQL: JOINS, GROUP BY, HAVING, CTEs, Subqueries, Window Functions, Aggregations, CASE Statements

Tools: Jupyter Notebook, Anaconda, VS Code, Git, GitHub

PROJECTS

End-to-End Sales Analytics Project

Excel, SQL & Power BI

- Cleaned and transformed transactional sales data using Excel and SQL to prepare datasets for business analysis.
- Applied SQL JOINS, CTEs, aggregations, CASE statements, and window functions to analyze sales, products, customers, and regional performance.
- Built an interactive Power BI dashboard tracking total sales, orders, average order value, product performance, and regional trends.
- Identified sales trends and underperforming segments and provided data-driven business recommendations.

HR Employee Attrition Analysis

SQL & Power BI

- Analyzed employee data to identify attrition patterns across departments, job roles, experience levels, and salary categories.
- Used SQL for data cleaning, filtering, JOINS, CTEs, aggregations, and KPI calculations to evaluate employee retention.
- Developed an interactive Power BI dashboard showing attrition rate, employee count, department-wise attrition, and job-role trends.
- Generated insights to identify employee segments with higher attrition risk and recommended retention strategies.

Revenue & Sales Funnel Analysis

SQL & Power BI

- Analyzed the customer journey from website visits and product interactions to cart additions and completed purchases.
- Used SQL JOINS, CTEs, subqueries, aggregations, and window functions to calculate revenue, conversion rates, and customer drop-offs.
- Identified funnel stages with significant customer drop-off and analyzed revenue contribution across products and customer segments.
- Created Power BI visualizations to present conversion rates, revenue trends, customer behavior, and key business KPIs.

EXPERIENCE

Data Analytics Intern

Ai Variant

- Performed data cleaning, exploratory data analysis, SQL querying, and visualization on structured datasets.
- Used Pandas and NumPy to clean, transform, and prepare datasets for analysis.
- Created visualizations to identify trends, patterns, and actionable insights.

Marketing Associate

Faizary Pharma Private Limited

- Supported marketing activities and business operations involving customer, product, and market-related information.

EDUCATION

B.Tech in Computer Science and Engineering

2025

Integral University, Lucknow

CGPA: 7.8/10

Intermediate – Bihar Board: 79.6% Matriculation – Bihar Board: 77.2%

CERTIFICATION

Data Science / Data Analytics Training – ExcelR

- Completed training in Python, SQL, Statistics, Machine Learning, Data Analysis, Excel, Tableau, and Power BI.
